

Dear all,

It is our pleasure to inform you that the second Special issue of South-Eastern European Journal of Earth Observation and Geomatics [SEEJoEOG] is on the air. This is an Open Access online journal. Please visit the journal's homepage at the following website <http://ejournals.lib.auth.gr/seejeog>.

Competition for the most downloaded paper

The editorial team of SEEJoEOG, European Space Imaging and Total View Innovative Technologies, are happy to announce the competition for the most downloaded paper. According to the contest rules, authors of the most downloaded paper for the period January 2012 to March 2013, will gain a satellite image of their choice (in the competition not involve papers containing members of the editorial board of the journal).

The data of the satellite image are the following:

- WorldView-2 image;
- 200 km<sup>2</sup> (contiguous);
- 8 Band Bundle;
- Global Archive (authors will choose region of their interest). Downloads counter will be announced from the main page of the journal every month.

Call for papers for the 2nd Regular issue, Vol1, No2, October 2012  
The deadline for full paper submission especially for the 2nd regular issue is 15 August, 2012.

Call for Special-Thematic issues, Vol2, No1S, January 2013  
Special-Thematic issues are open to guest editors who feel that he/she can contribute towards the objective of the journal. A special-thematic issue consists a collection of articles based on a contemporary theme or topic of great importance to the field. The Guest Editors' main editorial task is to invite the contributors to the issue and to manage the peer review of submitted manuscripts. Hence, if you have an idea for a Special-Thematic issue which you would like the Editor to consider, please send your suggestion to: [patias@auth.gr](mailto:patias@auth.gr).

Call for Column Editors

The SEEJoEOG is looking for reputable scientists/academics for the positions of Column Editors. The successful candidates will manage the peer-review process within their assigned discipline and ensure that the submissions are processed in a timely manner.

They will guide a number of submissions per year through the review/editing process

for:

- Book Reviews;
- Reports of events.

Section editors are expected to have strong interpersonal skills, organizational, communication and management skills, advanced editing, research and critical analysis abilities, excellent writing skills and high ethical standards. Specific Application Requirements is a cover letter that briefly introduces their interests and experience and a Brief Curriculum Vitae.

Yours sincerely,

Editor-in-Chief

Petros PATIAS, Prof., School of Rural & Surveying Engineering,  
Department of Cadastre, Photogrammetry and Cartography,  
Aristotle University of Thessaloniki, Greece
